# Guide to our regular plant sizes

## Quality plants and bulbs delivered straight to your door at just the right time for planting.

Continued investment in quality management and packaging means that our quality control process is better than ever. Plants are double and triple checked before they get sent out to you. They also spend less time in the post. With our new packaging, many of our plant parcels can fit straight through your letter box.

**A. Garden Ready Plants** are supplied differently to those found in garden centres. And for good reason. Retailers need their plants to catch your eye on the shelf; we simply want ours to perform at their best! So we send them out at the perfect time for planting, usually before blooms form, for quicker establishment, better root growth and flowering, and a longer, stronger display. 10-15cm.

**B. Jumbo Plugs** Jumbo plugs can be planted straight into baskets or other containers. 5-11cm.

More information and pack sizes can be found on our website.

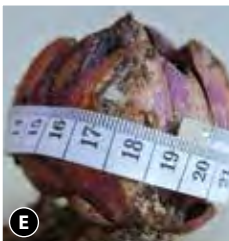

**C. Postiplants** We've re-designed our most popular plug size so that our plant parcels will fit through most letter boxes. 5-9cm.

**D. Plugs** With our exclusive to T&M cartridge plug system<sup>TM</sup>, each young plant has an extra-strong root system. 3-6cm. The open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

**E. Bulbs** We always supply first year flowering-size bulbs.

**F. Bare roots** These are sent in a dormant state without pot or compost. Planted in spring, they produce new growth through the year. Size 1 is the highest spec available irrespective of plant variety or size.

**G. Potted plants** These well-established plants are ready to be planted straight out into final positions, as long as the weather allows. Sizes given are usually the diameter of the pot.

## Our winter bedding plants

**A. Garden Ready** We despatch these super-size plants at the perfect time for planting out, usually before blooms form, so all the plant's energy has gone into producing a strong root system. This helps them to establish quicker for better growth and then a longer, stronger display of flowers. Available in packs of 15 and 30.

**Delivery: Sept-Oct** Plants are 10-15cm depending on variety

**B. Plugs** With our exclusive cartridge plug system® PAP, each young plant has an extra-strong root system for the best of starts. The open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

**Delivery: Sept** Plants are 3-6cm depending on variety

For a formal look to your tulip display space bulbs evenly across the area before planting. For a more natural look, gently throw bulbs in the air and plant them where they land

# Get set for spring

Plant our new introductions this autumn to set up your garden for spring

We are always looking to keep our offering fresh with the latest introductions and we have three new stunners that are sure to steal the show in your spring planting plans. No garden can be without a display of spring bulbs, so lets start with tulips and daffodils.

Our new **Tulip 'Crown Mix'** brings together a sumptuous collection of colourful and textured parrot and crown type tulips. This romantic colour mix boasts elaborately fringed, ruffled and fluted petals for extra interest in spring planting schemes. The hardy bulbs are ideal for planting out in beds and borders, giving real impact in large block planting but also holding enough appeal

for big impact in patio pots and window boxes too. Plant this autumn for many years of spring interest.

With blooms this attractive, **Daffodil 'Mr Vain'** can be forgiven for loving itself! We love it too and we're sure it's set to become a firm customer favourite. The big, bold blooms offer a subtle harmonious colour combination of soft lemon petals offset by a cream trumpet – far removed from a standard yellow daff! Perfect for containers, border drift planting and underplanting of larger trees and shrubs. 'Mr Vain' will return year after year with little effort. Tall sturdy stems up to 45cm make beautiful cut flowers too.

### NEW Tulip 'Crown Mix'

KF9280 £11.99 (12 bulbs)

KF9299 £19.99 (24 bulbs)

HBb. 40cm (16in). Flowers: Apr-May, Sun. Beds, Borders, Pots. Delivery: Sept-Nov.

We have a must-have for all rose lovers with the introduction of **Rose 'You're My Everything'**. Named 'Rose of the year 2025', this stunning variety offers large double flowers with enticing fragrance, hybrid tea vigour and up to four months of repeating colour throughout summer and into autumn.

## Large, double flowers with enticing fragrance

Tight cream buds tinged with pink edging unfurl to display a delicate yellow centre and yellow stamens. As the flowers mature the frilly petals turn a rich pink. Foliage growth emerges rich-red, taking on a deep glossy green as it matures and thanks to excellent disease resistance will stay that way with little issue of rust or black spot. Modern disease resistance with old fashioned fancy blooms – possibly the best combination you could ask for in a garden rose.

### NEW Daffodil 'Mr Vain'

KF6362 £9.99 (5 bulbs)

KF6363 £12.99 (10 bulbs)

KF6364 £19.99 (20 bulbs)

KF6365 £32.99 (40 bulbs)
