Guide to our regular plant sizes

Quality plants and bulbs delivered straight to your door at just the right time for planting.

Continued investment in quality management and packaging means that our quality control process is better than ever. Plants are double and triple checked before they get sent out to you. They also spend less time in the post. With our new packaging, many of our plant parcels can fit straight through your letter box.

A. Garden Ready Plants are supplied differently to those found in garden centres. And for good reason. Retailers need their plants to catch your eye on the shelf; we simply want ours to perform at their best! So we send them out at the perfect time for planting, usually before blooms form, for quicker establishment, better root growth and flowering, and a longer, stronger display. 10-15cm.

B. Jumbo Plugs Jumbo plugs can be planted straight into baskets or other containers. 5-11cm.

More information and pack sizes can be found on our website.

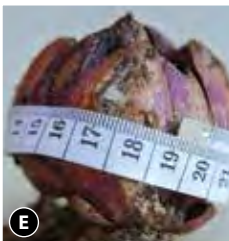

C. Postiplants We've re-designed our most popular plug size so that our plant parcels will fit through most letter boxes. 5-9cm.

D. Plugs With our exclusive to T&M cartridge plug systemTM, each young plant has an extra-strong root system. 3-6cm. The open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

E. Bulbs We always supply first year flowering-size bulbs.

F. Bare roots These are sent in a dormant state without pot or compost. Planted in spring, they produce new growth through the year. Size 1 is the highest spec available irrespective of plant variety or size.

G. Potted plants These well-established plants are ready to be planted straight out into final positions, as long as the weather allows. Sizes given are usually the diameter of the pot.

BEST VALUE!

Plug plants:

Each young plant has an extra-strong root system for the best of starts, thanks to our open sided cartridge system. It causes root tips to dehydrate, this is known as 'air-pruning', which encourages the growth of new, lateral fibrous roots, making your plants stronger, more reliable and ready to burst into growth when planted up.

Garden Ready plants:

We despatch these super-size plants at the perfect time for planting out, usually before blooms form, so all the plant's energy has gone into producing a strong root system. This helps them to establish quicker for better growth and then a longer, stronger display of flowers.

Our Garden Ready Plants make gardening as simple as 1, 2, 3...

1. OPEN

Open as soon as they arrive and check them over. Be sure to read and follow the enclosed planting instructions!

2. PLANT

Plant your garden ready plants straight into the garden, containers, or baskets.

3. WATER

Water your plants! Water them when they arrive, then again when you plant them out into their final positions - don't allow them to dry out!

Giant, fully-double blooms up to 10cm across!

New Arrivals for 2025

Showcasing the best new flowers and foliage for lasting garden displays

It's not summer in the garden without a vibrant display of cheery begonias. New to our begonia range for 2025 we have a world exclusive with the launch of **Begonia 'Majestic Apricot Shades'**.

Fully-double blooms

Larger than life blooms over weather-proof foliage promise a real wow-factor in hanging baskets and patio containers, thriving in both sun and shade. The fully double blooms appear in a wide range of fiery apricot and orange shades, including stand out picotee edges. This power-

house begonia will flower up to the first hard frosts.

All named after European cities, **Peony 'Capital Trio'** offers the glamour of peonies in even the smallest of spaces. Larger traditional peonies are not suited to growing in pots, but **Peony 'London'**, **'Madrid'** and **'Rome'** have been specifically developed for successful container growing, flowering prolifically on neat bushy mounds of deeply lobed, dark green leaves, reaching just 40-60cm in height. Despite their petite proportions, **Peony 'Capital Trio'** boasts large blooms that are produced in abundance for big impact in the garden. Keep your peony display looking fresh

for as long as possible with our classic **peony & herbaceous plant frame**. Our powder coated steel frame adds a touch of architectural elegance to borders and keeps blooms upright and on show.

'Party Duo' is the most exciting hosta launch for many years. This contemporary pairing boasts twin varieties with unusual lance-shaped rippling foliage. **Hosta 'Party Streamers'** boasts bright yellow foliage whilst **Hosta 'Silly String'** has contrasting blue-green leaves, making eye-catching planting companions. In summer the foliage is masked by an abundance of flower spikes. The duo is perfect for adding texture, movement and colour to drab, shady areas. Plant them in beds and borders or in containers where their fountain-like foliage will cascade over and soften edges.

- GRAFTED - VEG PLANTS

Giving you up to a massive 75% increase in yields!

1

**Pick n Mix Grafted Veg
3 or more 9cm pots for £6 per pot**

2

BENEFITS

- **Longer cropping season** - plants fruit earlier in spring and crop later into autumn
- **Extra strong root system** allows plants to be grown outside - no need for a greenhouse!
- **Better tolerance to soil pests and diseases** - no need for growbags - plant straight into the ground.

This all-natural process of joining a fruiting variety to a more vigorous rootstock brings the goodness of grafted vegetables to your own pots and plots. We've selected rootstocks to bring you the best possible results.
